

# Adjustment to Athletics Records

**As a school we are continually looking at updating our policies and records to be in line with IGSSA. IGSSA is a sub-committee of AHIGS, the Association of Heads of Independent Girls' Schools, NSW. There are 31 independent girls' schools within AHIGS, Danebank being one of them and IGSSA's role is to provide sporting activities for the students of members' schools.**

We have recently reviewed the way we record Athletics sporting records to reflect the way the girls compete at IGSSA Athletics.

For most events IGSSA run field events in Junior, Intermediate and Senior categories, while the majority of track events are in individual age groups.

IGSSA has changed the way students compete in Long Jump and Shot Put. These events are now run in individual age groups, so we have adjusted the format of our school records to reflect this.

The 1500m and 400m is run in Junior, Intermediate and Senior categories at IGSSA so our school records will be adjusted to reflect this as well.

Due to the Age Championship (Individual Point Score), it is necessary for all events at our school carnival to be run in age groups however the records will be written as above.

Any previous records that are not represented in this new format will be archived.
